A BILL

To establish certain duties for pharmacies to ensure provision of Food and Drug Administration-approved contraception, medication related to contraception, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Access to Birth Control
5 Act”.

1 **SEC. 2. FINDINGS.**

2 Congress finds as follows:

3 (1) Family planning is basic health care. Access
4 to contraception helps prevent unintended pregnancy
5 and control the timing and spacing of planned
6 births.

7 (2) As a result of the enactment of the Patient
8 Protection and Affordable Care Act (Public Law
9 111–148), approximately 64,300,000 women had
10 coverage of the full range of Food and Drug Admin-
11 istration-approved contraceptive methods without
12 cost sharing in 2020.

13 (3) The Patient Protection and Affordable Care
14 Act saved women \$1,400,000,000 on birth control
15 pills alone in 2013.

16 (4) According to the Centers for Disease Con-
17 trol and Prevention, nearly $\frac{2}{3}$ of women between the
18 ages of 15 and 49 are currently using a contracep-
19 tive method.

20 (5) Although the Centers for Disease Control
21 and Prevention included family planning in its pub-
22 lished list of the Ten Great Public Health Achieve-
23 ments in the 20th Century, the United States still
24 has one of the highest rates of unintended preg-
25 nancies among industrialized nations.

1 (6) Each year, approximately 2,800,000 pregnancies, nearly half of all pregnancies, in the United States are unintended.

4 (7) Access to birth control helps people achieve their goals of whether, and when, to get pregnant. However, studies show that when people are unable to access contraceptive care that fits their lives, they are more likely to face unintended pregnancies.

9 (8) Contraceptives are used for a range of medical purposes in addition to preventing pregnancy, such as treating abnormal cycles and endometriosis.

12 (9) The Food and Drug Administration has approved multiple emergency contraceptive methods as safe and effective in preventing unintended pregnancy and has approved over-the-counter access to some forms of emergency contraception for all individuals, regardless of age. If taken soon after unprotected sex or primary contraceptive failure, emergency contraception can significantly reduce a person's chance of unintended pregnancy.

21 (10) Legal contraception is a protected fundamental right in the United States and should not be impeded by one individual's personal beliefs.

24 (11) Reports of pharmacists refusing to fill prescriptions for contraceptives, including emergency

1 contraceptives, or provide emergency contraception
2 over-the-counter have surfaced in States across the
3 Nation, including Alabama, Arizona, California, the
4 District of Columbia, Georgia, Illinois, Louisiana,
5 Massachusetts, Michigan, Minnesota, Missouri, Mon-
6 tana, New Hampshire, New Mexico, New York,
7 North Carolina, Ohio, Oklahoma, Oregon, Rhode Is-
8 land, Tennessee, Texas, Washington, West Virginia,
9 and Wisconsin.

10 (12) One-third of women have experienced a
11 delay in accessing their contraception because of the
12 ongoing coronavirus pandemic. The Centers for Dis-
13 ease Control and Prevention recognizes the impor-
14 tance of access to contraception, particularly during
15 the pandemic.

16 (13) Pregnant people have a much higher risk
17 of dying once infected with COVID–19, which high-
18 lights the importance of people being able to make
19 and exercise decisions about whether and when to
20 become pregnant.

1 **SEC. 3. DUTIES OF PHARMACIES TO ENSURE PROVISION OF**
2 **FDA-APPROVED CONTRACEPTION AND MEDI-**
3 **CATION RELATED TO CONTRACEPTION.**

4 Part B of title II of the Public Health Service Act
5 (42 U.S.C. 238 et seq.) is amended by adding at the end
6 the following:

7 **“SEC. 249. DUTIES OF PHARMACIES TO ENSURE PROVISION**
